

RESONATE

THINKING SOUND
& SPACE

Powered by
MAAT & reSITE

FEBRUARY 12, 2018 9 am – 7 pm
MAAT MUSEUM LISBON

MAAT Museum and reSITE in collaboration with Meyer Sound host a conference focusing on architectural soundscapes, the technological innovation of sound environments, and the creation of ground-breaking acoustic experiences. During a one-day international event we will bring world's best creators of sound spaces and acoustic experiences to Lisbon and we will be thinking about sound and space with architects of the most fascinating contemporary music and culture venues, such as Snøhetta, ARUP and Diller Scofidio + Renfro.

The program, closely related to Bill Fontana's Shadow Soundings sound and live streaming installation at MAAT, will include artist-led tours, innovative technologies, demonstrations and performances, keynote lectures and discussions with editors from leading global media.
