

# Architecture

361°  
THE DESIGN CONFERENCE

17<sup>TH</sup>, 18<sup>TH</sup> FEBRUARY, 2016  
NEHRU CENTRE, MUMBAI

# And The City

ARCHITECTURE | URBANISM | SUSTAINABILITY

The conference intends to create a platform to allude that the 'City' is much more than an accumulation of buildings, construction, and architecture – they also comprise public spaces such as parks, squares, streets and alleys that are equally significant components of the urban fabric. The conference will attempt to highlight the urgent need to comprehend the role of the architecture of cities as both agents of change and catalysts of survival to look at the micro and macro level issues of sustainable design for the future of our cities.

*"One cannot make architecture without studying the condition of life in the city." – Aldo Rossi*

**Registration at 9:30 am**
