

CREATING HOMES FOR TOMORROW AMSTERDAM – ZURICH – HELSINKI – KYIV

Open Call:

'Creating Homes for Tomorrow'

CANactions School 2019/20 educational program

Within the 2019/20 program, CANactions School travels to 4 metropolises in western, northern and central Europe and explores their innovative approaches for creating more livable neighborhoods. Based on the findings, we develop new strategies for locally specific and globally relevant questions, considering spatial, economic, social and political measures.

The program is exposed to the housing context of the three European cities that are widely acclaimed for their high living quality – Amsterdam, Zurich and Helsinki, and absorbs their practices to specifically address the housing challenges of the rapidly expanding Eastern European metropolis of Kyiv.

The program is organized in a modular format, with possibility to pick two or more workshop for attendance, including the final workshop in Kyiv, which is compulsory for all participants. Each 8-day workshop is organized as on-site exploration of a local housing context in one of the four studied cities.
