ReDesignEd

EDUCATORS FORUM | 2023

The ReDesignEd Educators Forum is an unaffiliated and independent GloWD annual design futures think tank meeting. By invitation, it gathers a select and diverse group of global design thinkers and leaders. Facilitated through provocative positions, this highly-structured, collaborative and hands-on event requires an active and engaged individual participation where each voice is vital. Through a series of rotating working sessions, visionary colleagues and peers from around the world, with unique perspectives, contribute meaningful and universally impactful outcomes.

DESIGN RETHINKING AT THE LEADING EDGE

Progress & the Future

27-29 APRIL 2023 | MEXICO CITY, MEXICO

Exploring creative connections at the frontiers of design and its thinking, GloWD's 2023 ReDesignEd Forum meets in a global gathering at the beautiful UNESCO World Heritage Central University City Campus of the Universidad Nacional Autónoma de México (UNAM), in vibrant Mexico City. With a culture of nurture and curiosity, we reignite passion for creative learning and teaching. Convening a select group of prominent design thinkers from across the globe, we come together to assess and advance **DESIGN RETHINKING AT THE LEADING EDGE: Progress and the Future**.

In this first post-pandemic in-person gathering, we explore implications of a global disruption that has radically shifted societal behaviors, processes, and expectations. We will investigate new perspectives and design literacy components that are transformative. Probing knowledge and methods essential for retention and advancement, we will contend with such questions as:

- How has the world changed in the last three years and what do we know now that we didn't before?
- How do we expand design thinking for improved impact?
- Is digital and AI technology truly transformative or are we overestimating its impact?
- Are future designers discipline-specific or generalists? Are they creators or curators?
- How do we connect learning to community?

Don't miss out on this opportunity to uniquely collaborate, network and grow. Challenge and be challenged by exceptional colleagues from around the world to advance and contribute to design teaching, learning and application.

GloWD ReDesignEd Educators Forum

As a global design summit event, the Forum is the brain trust and think tank meeting that connects people to explore the state of design education in higher-ed. It is a necessary refreshment for appropriate curriculum, content and teaching methodologies.

GloWD Ethos

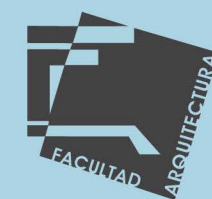

GloWD challenges the status quo of all things design. Through globally collaborative input, it provokes leading-edge exploration.

GloWD precipitates transformed mindsets and skillsets, as well as pedagogies and practices. This is done with the objective to responsibly deliver fresh and timely solutions to global issues through and by design.
