

THE DREAM OF CENTURY

WORLD'S MOST THRILLING ARCHITECTURE COMPETITION

THE DREAM OF CENTURY
PRIZE \$1500 USD

ARCHU
A Complete Architectural Solution

BRIEF:

“ARCHITECTURE IS ABOUT TRYING TO MAKE THE WORLD LITTLE MORE LIKE OUR DREAMS”

– BJARKE INGELS (BIG GROUP)

From the beginning of time human as a species dream, dream about better safety, better food and best roof over their head. These dreams which transferred to reality by some enthusiasts in humans from time to time, make us different, make us what we are now.

But the challenges in the beginning of the were safety from wild animals is gone but there come new challenges every day.

We as humans are constantly facing **new challenges** of upcoming future like **human rights violations, issues of race, gender and religion, displacement and immigration from war torn countries, Rising level of Global Warming, Deforestation.**

What is your dream for this world?

What you want to see in this world at the end of century?

What is the most tipping challenge you want to solve?

What is the Utopia for you?

Have you asked these questions in your architecture college or architecture practice, have you ever dreamed a world free of the challenges a utopia?

We at Archue want to understand how you as an architect and architecture student Dream the future of our generations.

PROGRAMME:

The programme is you have to create a **Dream Story** with not more than **4 Images** used with a text narrative in the most spectacular way possible.

You can pick **any challenge which is existing in the world or you can hypothetically create any challenge.** And you must provide the **Solution for the Same Challenge** by leveraging Architecture and Design in your Proposal.

*Participants can select any site which will be best suited for their Design or Proposal.

*It can be a **hypothetical site** accordingly with the Problem and challenge which was selected by the team.

EVALUATION CRITERIA:

The competition aims to explore how the participants select and Convey the Challenge which they are selecting.

Use of intelligent and appropriate design interventions with clarity and comprehensibility of planning.

The innovative challenge and Solution to them are considered as having the great impact on the judging criteria.

The evaluation criteria mainly entail participants to think through the basic functionality and navigation of spaces of the structure, thoughtful conceptualization behind design and aesthetics and expressive and evocative presentation.

Wildest Solutions and Problems are preferred.

For Any Queries Let us know at admin@archue.com.
