RECLAIM THE RIVER

WWW.RECLAIMTHERIVER.COM

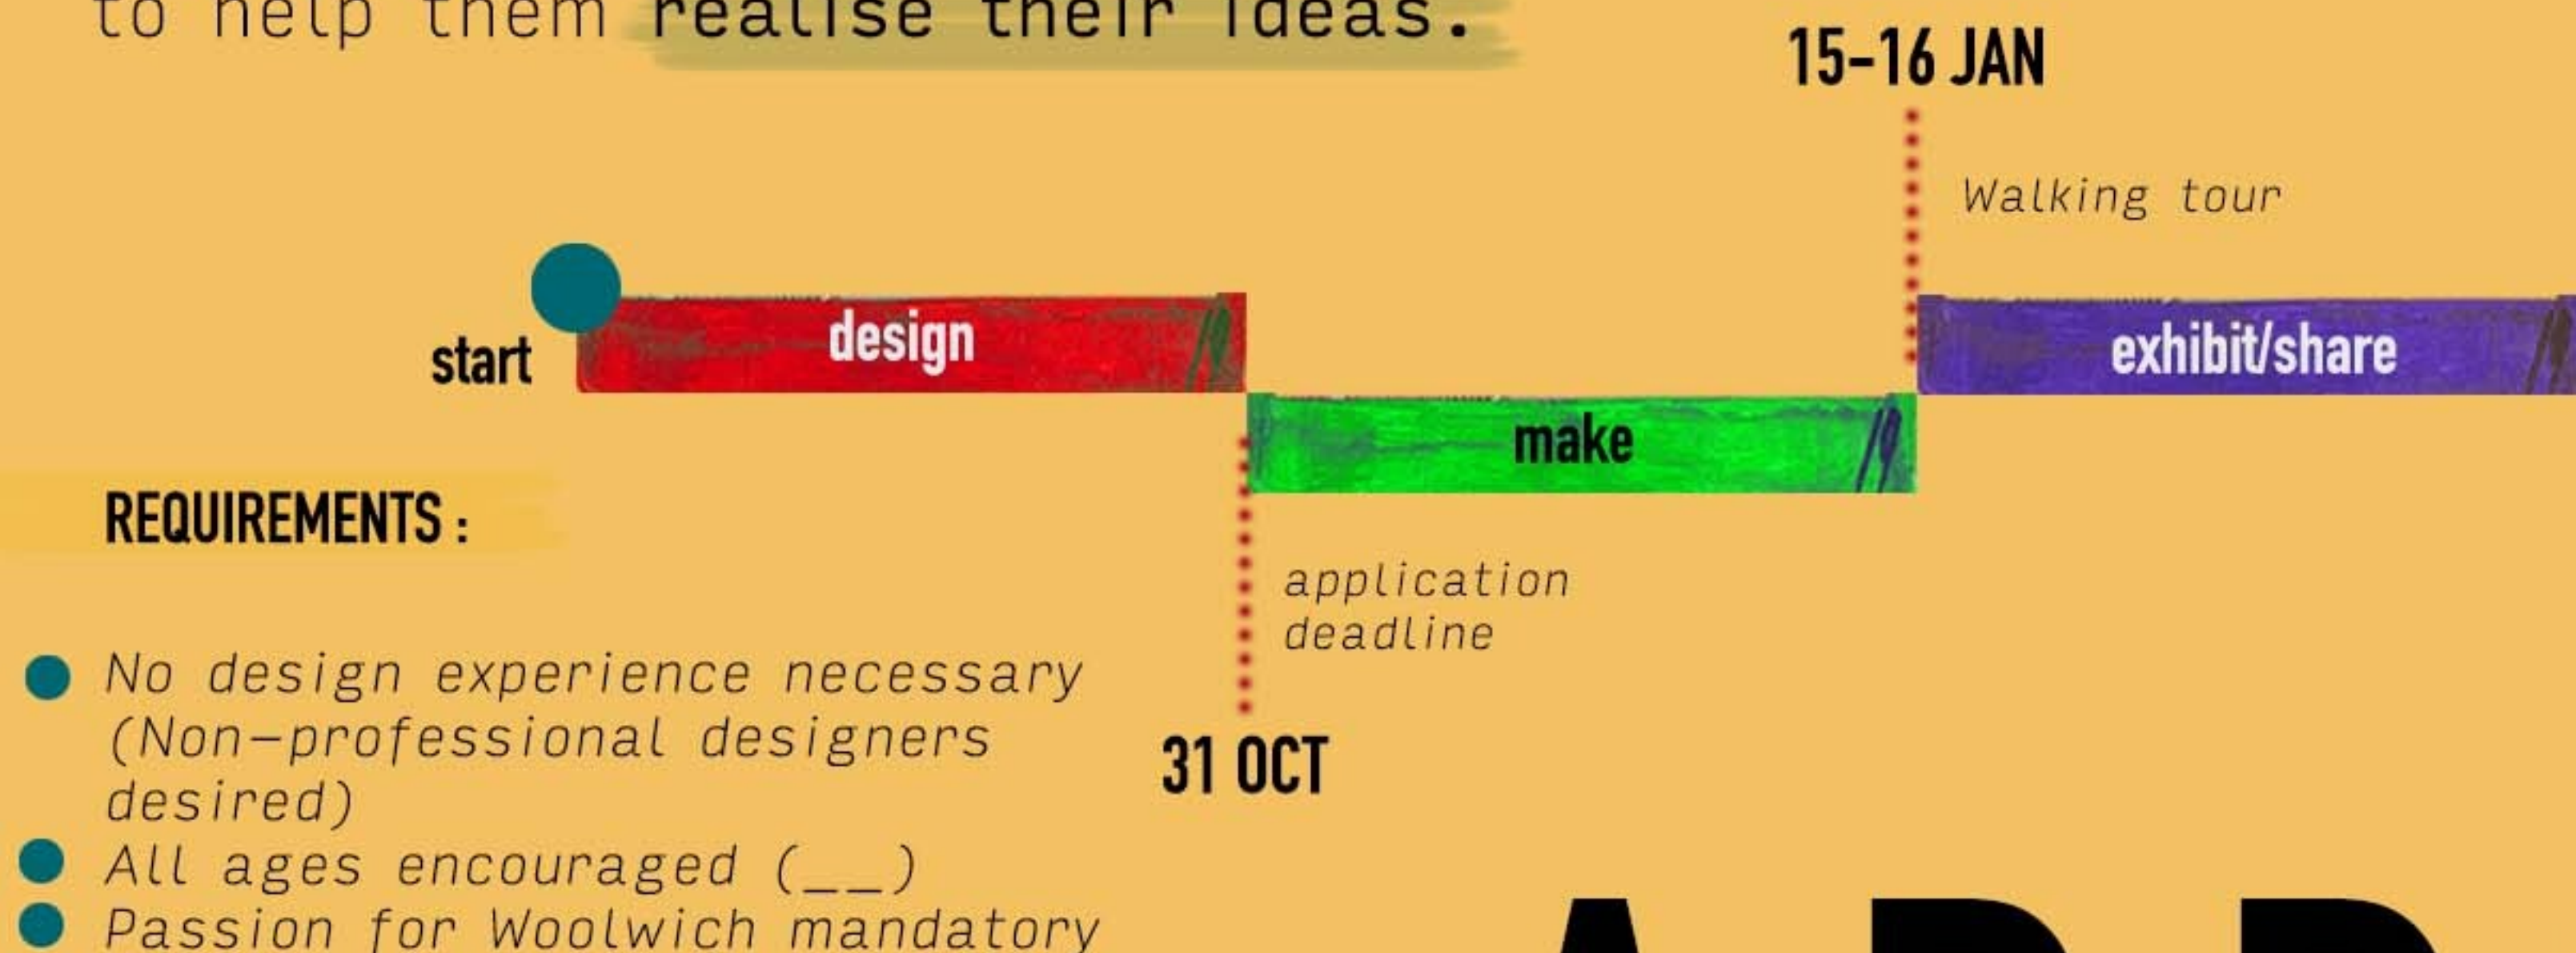

R'eclaim the River' invites residents of Woolwich and the surrounding areas to reconnect to the Thames through an open physical and digital design competition.

The competition invites both groups and individuals to apply, prioritising **'first-time designers'** and collaborations with **local** residents. Applicants' physical designs will be installed across a variety of available locations between the town centre and the river, while digital designs will be exhibited on the competition website.

This will conclude in a celebration of the chosen designs in the 'Reclaim The River' Walking Tour in January 2022.

The competition hosts a series of locations that applicants can **choose to design** for, each location has its own mini-brief. Each mini-brief suggests ways in which applicants could explore Woolwich's historical connection with the river and celebrate Woolwich's contemporary lived heritage: championed by the many people and cultures that continue to allow Woolwich to thrive and connect it to the wider city and world.

A selection of chosen applicants will each be given a total budget of £1000 alongside access to historical archives, mentorship, and a catalogue of recycled materials, organised and archived by the competition's organisers. The chosen applicants will receive guidance from RESOLVE Collective, in addition to other experienced practitioners, to help them **realise their ideas.**
